Subject: RE: Donlin Gold Project HIA released to cooperating agencies

Hi Teena,

I let the Corps know that EPA was planning to have our in-house experts conduct a peer review/comment of the HIA, as well as ask ATSDR to do the same.

Sheila was fine with that, but the concern is with the State. The Corps will be meeting with the State to understand their concerns with agency and public review of HIAs.

This may be an issue that management can discuss with the State directly what their concerns are with public/peer review of HIAs, since the State is pushing to develop HIAs for the Alaska large projects.

Public/peer review should be the standard practice and process for developing HIAs under NEPA. I will start include that language in our scoping comments.

Thanks

Mark

Subject: Donlin Gold Project HIA released to cooperating agencies

Hi Teena,

The Corps released the Draft HIA for the Donlin Gold Project (Feb 2016) to the Cooperating Agencies. The Corps requested that this document remain within the cooperating agencies.

The document is over 200 pages. Is this something we can request Lon K. to review and comment? It would be great if we can have ATSDR conduct a detailed review as well.

We should get comments to the Corps for inclusion in the Donlin Gold FEIS.

Thanks

[Outline - Donlin Gold Project DEIS.docx](#)

Greetings Everyone,

I want to thank those of you for providing very thoughtful and detailed comments in the EPA Comment Template on the SharePoint Site. For those still planning to provide comments, please let me know when you have finished. Based on the comments, I have put together an Outline of Major Issues (Attached).

Here is what I need from you by this Friday, March 25 (Good Friday) or earlier:

1. Review the Outline of Major Issues. Using Track Changes in MSWord, add additional Issues that I have missed. The list is quite long, so suggest ways to consolidate these issues;
2. For each of the issues, the plan was to develop an Issues Paper with bulleted comment points that will be further discussed in the EPA NEPA 309 comment letter. Please see example for GHG Emissions and Climate Change (Page 2). I have inserted bulleted comment points.
3. If you have an interest, I would appreciate if you could insert bulleted comment points under each Issue. Otherwise, I plan to do that using the comments provided in the comment template and during my review.

The next deliverable I plan to provide the Team for review and discussion is the Draft Issues Paper with the bulleted comment points. I plan to provide this to you prior to our Team Meeting on Thursday, March 31.

Please feel free to contact me with your questions. I will be in the field tomorrow (Tuesday, March 22, back in the afternoon of March 23). I will be checking emails.

Thanks again for your active engagement on the Donlin Gold Project.

Subject: Meet and Greet with EPA Managers & Discuss Project Issues - Are you available July 26?

Greetings Richard and Dan,

A major milestone regarding the Donlin Gold Project has been reached with the release of the Preliminary Final EIS to cooperating agencies. Kudos to both of you!

The EPA team looks forward to reviewing the document.

I wanted to let you know that Jill Nogi, Manager for the NEPA program in Seattle, will be in Anchorage the week of July 24. We would like to have a meet and greet with both the Corps and Donlin Gold, LLC. We will also video teleconference with the Seattle Regional Office.

To help us better understand the PFEIS, we would appreciate if Donlin Gold, LLC could provide us with an overview of the wetlands compensatory mitigation plan. We can have a discussion around that. We may have comments prepared on the Human Health Risk Assessment. We can have a discussion around that, as well. We can flush out an agenda after we have confirmation of everyone's availability.

So, for the time being, are you both available for a meeting on Wednesday, July 26? Please let me know your preference for am or pm meeting. I was thinking we could meet for two hours or so. If Wednesday does not work, please suggest alternative dates.

Thank you for your time.

Mark

Subject: DONLIN GOLD PROJECT - Preliminary Final EIS Review - EPA Comment Deadline: COB August 30, 2017
[Executive Summary PFEIS FINAL.pdf](#)
[Table of Contents - Front Matter - INTERIM.pdf](#)

On Friday, July 7, the U.S. Army Corps of Engineers released the Donlin Gold Project Preliminary Final EIS (PFEIS) to the cooperating agencies for a 60-day review (September 11, 2017). **Our internal deadline is COB Wednesday, August 30.**

My goal is to upload all the PFEIS documents to the EPA SharePoint Site by Wednesday. I will send out another email with instructions on where the PFEIS documents are located and how to access them on the EPA SharePoint Site.

Three sections in Chapter 3 are delayed and will be provided on or about July 28 in order to incorporate the additional information from the recently completed Human Health Risk Assessment (June 30). These sections are:

(1) Section 3.19 Environmental Justice, (2) Section 3.21 Subsistence, and (3) Section 3.22 Human Health.

For those new to the project, I have attached the PFEIS Executive Summary and the Table of Contents. The Executive Summary provides an overview of the applicant's proposed project, alternatives, and the environmental issues. The Table of Contents may assist you in identifying the appropriate chapters/sections to review and their respective page lengths.

If you have any questions, please do not hesitate to contact me.

REMINDER: Please do not share any of the Donlin PFEIS documents with anyone outside of the review team.

Thanks!

Subject: Donlin Gold Project EIS - Revised Schedule

Hi Ken,

Here is an update on the Donlin Gold Project EIS:

New additions to the Donlin Gold Project Folder (Baker Share Drive ETPA)

- 1. Wetlands Functional Assessment Report
- 2. Mercury Management Package – fugitive and stack, emissions report, modeling report, fate report, co-product management report, summary whitepaper);

Due to the additional new reports, the contractor URS needs time to review and incorporate the information into the Environmental Consequences section of the EIS. This has resulted in the push back of the project schedule:

Oct 30 to Dec 1, 2014 (21 calendar days) - Agency Review of the Preliminary Draft Environmental Consequences Section

Mar 4 to Apr 9, 2015 (27 calendar days) - Agency Review of the Preliminary Draft EIS

July 22 to – Nov 18, 2015 - Public Review of the Draft EIS

Aug 12 to Nov 17, 2015 – Public Meetings on the Draft EIS

May 24 to June 29, 2016 (26 calendar days) – Agency Review of the Preliminary Final EIS

Sept 30, 2016 – Notice of Availability of the Final EIS

Feb 1, 2017 – Corps Public Notice of Draft ROD

Please let me know if you have any questions. Hope you are enjoying your summer!

Thanks

Mark

Hey Lon,

It was great to see you at the NEPA training this week. I forget to touch base with you regarding the Donlin Gold Health Impact Assessment. Do you have time to review the Donlin Gold Health Impact Assessment. EPA raised the issue that the HIA was not publicly reviewed in our comment letter on the Draft EIS.

We asked ATSDR for a review of the HIA, but they had to decline.

Since you are the R10 expert in health risk assessment, I am hoping you will have time to review the HIA.

Let me know if you have any questions.

Thank you!

Mark

Hello Lon and Rhonda,
The Corps released the Feb 2016 draft HIA to the cooperating agencies last week. We would very much appreciate your expert opinions on the document (attached). While there is no specific due date for the review, we want our comments to be early enough to influence the final EIS. Is 30 days feasible?
Thank you for your help.

Subject: Donlin Gold Project HIA released to cooperating agencies

Hi Teena,

The Corps released the Draft HIA for the Donlin Gold Project (Feb 2016) to the Cooperating Agencies. The Corps requested that this document remain within the cooperating agencies.

The document is over 200 pages. Is this something we can request Lon K. to review and comment? It would be great if we can have ATSDR conduct a detailed review as well.

We should get comments to the Corps for inclusion in the Donlin Gold FEIS.

Thanks

Subject: FRIENDLY REMINDER: Donlin Gold Project - DRAFT EPA Comments on the SOW for the Human Health Risk Assessment

Greetings David and Dianne,

This is a friendly reminder to review/concur on the attached EPA comments on the Human Health Risk Assessment SOW for the Donlin Gold Project.

Comments were expected by the Corps on Friday. I let the Corps know that we would try and get them in on Monday.

Thanks

Mark

Hi David and Dianne

Sounds like you are both out of the office today. I will let the Corps know to expect our comments next Monday.

However, if you are checking your emails today and would like to do some light reading, please consider reviewing/concurring on the latest version of the EPA comment letter on the Donlin Gold Project Scope of Work for the Human Health Risk Assessment.

Thanks Lon for providing additional comments.

Have a great weekend!

Mark

Subject: Donlin Gold Project - DRAFT EPA Comments on the SOW for the Human Health Risk Assessment

Greetings David and Dianne

I wanted to let you know that Lon and Chris provided excellent comments on the Donlin Gold Project Scope of Work for the Human Health Risk Assessment.

We request your review/concurrence of the EPA comments before sending them to the Corps. The Corps would like to receive our comments by tomorrow.

I have also attached the Donlin HHRA SOW and Conceptual Site Model Schematic that was the basis for our review comments.

Lon and Chris – please review and provide additional comments as appropriate.

Let me know if additional time is needed.

Thanks

Mark S. Jen

Subject: Updated Alaska High Priority Projects lists
[High Priority Energy Projects Nov 13.docx](#)
[High Priority Federal Projects Nov 13.docx](#)
[High Priority Mining Projects Nov 13.doc](#)
[High Priority Transp Projects Nov 13.doc](#)

Good morning,

Please find the attached updated lists for today's meeting. Because we are now developing updates in coordination with DNR (and I make our revisions first, then hand them off to DNR), the highlighted sections you see are not ours but the State's. I will ask if our edits (usually done in red) can be saved in future updates.

If you have any questions, please let me know.
